

Si-Mposium 2023

Where Science Meets Technology in Simulating the Human Organism

September 1st, 2023 | 9:00- 18:00

AMPLIFIER BERLIN

Gustav-Meyer-Allee 25 in 13355 Berlin (Mitte)
www.amplifier.berlin

Der Simulierte Mensch | Berlin

Join us as we delve into the fascinating world of technology and medicine convergence, specifically focusing on the development and application of human models.

1st September 2023 9 - 18 @ Amplifier Berlin (free of charge)
Registration and infos on abstract submission *here*.

Our keynote speakers:

Miao Ping-Chien

Multi-modal single cell analysis

Molecular Genetics @ Erasmus MC and founder of UFO Biosciences

Nikolche Gjorevski

Interactions of immune, epithelial and microbial cells

Lead Organoid Engineering @ Roche Institute for Translational Bioengineering

Joana Neves

Bioengineering approaches to understand the multicellular interactions

School of Immunology and Microbial Sciences @ King's College London

Vera Meyer

Merging science and the arts in the lab

Applied and Molecular Microbiology @ TU Berlin and freelance artist v.meer

Pre-event Get-Together (self-pay)

31st August 2023 @ Mauersegler Berlin

We sincerely thank our supporters and sponsors for their generous contributions.
